

AirBlueFluids

"Go Better Than Green, Go Blue"

DIESEL EXHAUST FLUID

- Diesel Exhaust Fluid (DEF) is a nontoxic solution of 67.5% water and 32.5% automotive grade urea.
- DEF is one of the key elements involved in the SCR process.
- DEF helps to convert NO_x into nitrogen gas and water vapor.
- DEF is stable, colorless, odorless, and meets international standards for purity and composition.
- DEF is defined by AUS-32 specifications and the specifications meet or exceed the ISO 22141-1 2006 Standard.
- AirBlueFluids DEF is certified by the American Petroleum Institute
